

.....

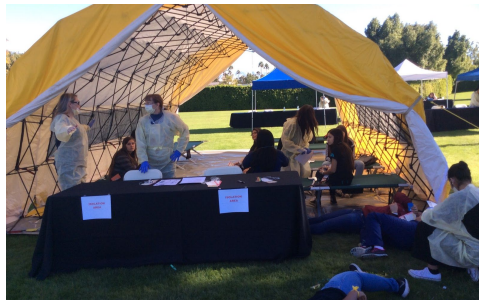

Cathedral City High School's Health and Environmental health Academy of Learning is a unique partnership between education and industry with two educational/career strands:

**Medical & Allied Health Care**  
**Environmental Health Science**

.....

### MISSION STATEMENT

Our goal is to prepare our diverse student population for careers in Healthcare and Environmental Health Science, to provide a rigorous academic program, appropriate support, and opportunities to explore a variety of careers. We create a college-bound culture paired with industry-based experiences to help students discover real-world connections between education and industry. Students develop knowledge, skills, and leadership abilities to help them be successful in their future careers.

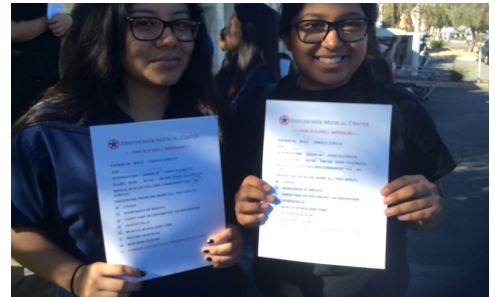

### STUDENT BENEFITS

- College and career focus
- Industry certifications (CPR, CERT, SERVSAFE)
- Mentorship, job shadows, internships
- Leadership and teamwork
- Membership in HOSA (Health Occupations Students of America)

### FOUR-YEAR PLAN

Students will take graduation and A-G compliant courses within the HEAL program, including the following specialized program sequence:

- Introduction to Health & Environmental Health Science Careers
- Healthcare Essentials
- Advanced Concepts of Medical Profession
- Public Health Solutions
