INDEPENDENT AUDITORS' REPORT

Governing Board
Palm Springs Unified School District
Palm Springs, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Palm Springs Unified School District (the "District") as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2005-06*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Palm Springs Unified School District, as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2006, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The required supplementary information, such as management's discussion and analysis on pages 4 through 11 and budgetary comparison information on page 43, are not a required part of the basic financial statements, but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information listed in the table of contents, including the schedule of expenditures of federal awards which is required by U.S. Office of Management and Budget Circular A-133, *Audits of State, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The unaudited supplementary information listed in the table of contents, including the Combining Statements - Non-Major Governmental Funds is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion.

This section of Palm Springs Unified School District's (2005-06) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2006, with comparative information from 2004-05. Please read it in conjunction with the District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Palm Springs Unified School District and its component units using the integrated approach as prescribed by the Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District, as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables, and receivables.

The *Fund Financial Statements* include statements for each of two categories of activities: governmental and fiduciary.

The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The *Fiduciary Funds* are agency funds, which only report a balance sheet and do not have a measurement focus.

The Primary unit of the government is the Palm Springs Unified School District.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2006

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

The District's financial status has remained positive.

- Overall revenues were \$30,006,492 more than expenses.
- Total net assets in governmental activities were recorded at \$199,017,664.
- The General Fund reported a positive fund balance of \$29,872,562.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Assets and the Statement of Activities

The *Statement of Net Assets* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include *all* assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in them. Net assets are the difference between assets and liabilities, one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net assets are one indicator of whether its *financial health* is improving or deteriorating.

The relationship between revenues and expenses are the District's *operating results*. Since the Board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the *overall health* of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Assets* and the *Statement of Activities*, we present the District activities as follows:

Governmental Activities - Most of the District's services are reported in this category. This includes the education of kindergarten through grade twelve students, adult education students, and the on-going effort to improve and maintain buildings and sites. Property taxes, state income taxes, user fees, interest income, Federal, State, and local grants, as well as general obligation bonds, finance these activities.

PALM SPRINGS UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2006

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

Governmental Funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial* assets that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

THE DISTRICT AS TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for funds held on behalf of others, like our funds for associated student body activities. The District's fiduciary activities are reported in separate *Statement of Fiduciary Net Assets*. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE DISTRICT AS A WHOLE

Net Assets

The District's net assets were \$199.0 million for the fiscal year ended June 30, 2006, an increase of \$30.0 million, or 15% over the prior year. Of this amount, \$27.4 million was unrestricted. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net assets for day-to-day operations. Our analysis below focuses on the net assets (Table 1) and change in net assets (Table 2) of the District's governmental activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2006

Governmental Activities

As reported in the *Statement of Activities* on page 13, the cost of all of our governmental activities this year was \$134.2 million, a decrease of \$2.3 million, or 1.7% over the prior year. The amount that our taxpayers ultimately financed for these activities through local taxes was \$50.2 million because the cost was paid by those who benefited from the programs (\$2.9 million) or by other governments and organizations who subsidized certain programs with grants and contributions (\$114 million). We paid for the remaining "public benefit" portion of our governmental activities with \$114 million in State funds and other revenues, like interest, and general entitlements.

In Table 3, we have presented the net cost (total cost less revenues generated by the activities) of each of the District's five largest functions – instruction related, student support services, administration, maintenance and operations, and other activities. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Totals	\$ 134.2	\$ 136.5

THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of \$172.5 million, which is an increase of \$84.1 million from last year.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted in June 27, 2006. (A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our annual report on page 43.)

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2006, the District had \$234.8 million in a broad range of capital assets, including land, buildings, furniture and equipment, and construction in progress. This amount represents a net increase (including additions, deductions, and depreciation) of \$22 million, or 9.4%, over last year. Depreciation expense of \$6.7 million was allocated to governmental activities during 2005-06.

Buildings and improvements	196.5	199.5
Furniture and equipment	2.6	2.2
Totals	\$ 234.8	\$ 212.8

This year's additions of approximately \$28.8 million consist of, construction of new and modernization of existing school sites, and equipment required for the operation of schools and support services.

Long-Term Obligations

At the end of this year, the District had \$205.1 million in general obligation bonds outstanding versus \$128.2 million last year, an increase of 37.5%. Unpaid accumulated vacation of \$.7 million and \$1.5 million of supplemental early retirement plan are also included:

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2006

SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2004-05 ARE NOTED BELOW:

- Acquisition of land in Palm Desert for elementary school, \$13,500,000.
- Julius Corsini Elementary 80% completion phase IV, \$2,600,000.
- Two Bunch Palms Elementary expansion 90% completion, \$1,375,000.
- Nellie N Coffman Middle School 50% completion phase III, \$2,500,000.
- Cathedral City High School completion of power plant, \$1,200,000.
- New Rancho Mirage High School architectural work, \$2,300,000.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the District Budget for the 2005-06 year, the District Board and management used the following criteria:

The key assumptions in our revenue forecast are:

1. Cost of Living Adjustment (COLA) 5.92%, \$56 est. equalization revenue, and no deficit reductions, 1.8% increased student enrollment.
2. State categorical programs include COLA increases.
3. Negotiating the acquisition of land for one new high school, one middle school and three elementary schools.
4. Developer fee collections estimated at 67% of prior year collections.

Expenditures are based on the following forecasts:

	<u>Staffing Ratio</u>	<u>Enrollment</u>
Grade kindergarten	31:1	1,813
Grades one through three	20:1	5,736
Grades four and five	31:1	3,618
Grades six through twelve	29.5:1	12,948
Total		<u>24,115</u>

The major changes to expenditure items specifically addressed in the budget are:

1. Employee step and column increases.
2. Staffing allocation based on enrollment growth.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact Evelyn Hernandez, Director of Fiscal Services, at Palm Springs Unified School District, 980 E. RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE DISTRICT-WIDE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2006

Total Net Change in Fund Balances - Governmental Funds	\$84,094,232
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:	
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures, however, for governmental activities, those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities.	
This is the amount by which capital outlays exceeds depreciation in the period.	
Capital outlays	\$28,776,013
Depreciation expense	<u>(6,734,020)</u>
Net Expense Adjustment	22,041,993
In the statement of activities, certain operating expenses - compensated absences (vacations) and special termination benefits (early retirement) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation and special termination benefits used was greater than the amounts earned by \$699,268.	699,268
Proceeds received from Sale of Bonds is a revenue in the governmental funds, but it increases long-term liabilities in the statement of net assets and does not affect the statement of activities.	(97,300,000)
Repayment of bond principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the statement of net assets and does not affect the statement of activities.	20,340,000
Repayment of capital lease principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the statement of net assets and does not affect the statement of activities.	11,623
Interest on long-term obligations in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The additional interest reported in the statement of activities is the net result of two factors.	(255,060)
An internal service fund is used by the District's management to charge the costs of the unemployment compensation insurance program to the individual funds. The net change in assets of the internal service fund is reported with governmental activities.	<u>374,436</u>

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Palm Springs Unified School District was formed in 1948 under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades K - 12 as mandated by the State and/or Federal agencies. The District operates fifteen elementary schools, four middle schools, three high schools, one continuation high school, an adult education program, and an alternative education program.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. The District has no component units.

Other Related Entities

Joint Powers Agencies and Public Entity Risk Pools The District is associated with two joint powers agencies. These organizations do not meet the criteria for inclusion as component units of the District. Additional information is presented in Note 15 to the financial statements. These organizations are:

- Riverside Schools' Insurance Authority (RSIA)
- Riverside Employer/Employees' Partnership (REEP)

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into two broad fund categories: governmental and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

PALM SPRINGS UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2006

Major Governmental Funds

General Fund The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of California.

Building Fund The Building Fund is used to account for proceeds from bond issuances to be used for the acquisition, construction, or improvement of major capital facilities.

Capital Facilities Fund The Capital Facilities Fund is used to account for resources received from developer impact fees assessed under provisions of the California Environmental Quality Act (CEQA).

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The District maintains the following special revenue funds:

Adult Education Fund The Adult Education Fund is used to account for resources committed to adult education programs maintained by the District.

Child Development Fund The Child Development Fund is used to account for resources committed to child development programs maintained by the District.

Cafeteria Fund The Cafeteria Fund is used to account for the financial transactions related to the food service operations of the District.

Deferred Maintenance Fund The Deferred Maintenance Fund is used for the purpose of major repair or replacement of District property.

Special Reserve Retiree Benefits Fund The Special Reserve Retiree Benefits Funds is used to account for resources committed to fund the future obligation of retiree health benefits.

Special Reserve Non-Capital Fund The Special Reserve Non-Capital Fund is used to account for specific revenue sources set aside by the District.

Capital Projects Funds The Capital Projects Funds are used to account for the acquisition and/or construction of all major governmental fixed assets. The District maintains the following capital projects funds:

Special Reserve Capital Outlay Fund The Special Reserve Capital Outlay Fund is used to account for funds set aside for Board designated construction projects.

County School Facilities Fund The County School Facilities Fund is used primarily to account separately for State apportionments provided for construction and reconstruction of school facilities (Education Code Sections 17010.10-17076.10).

PALM SPRINGS UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2006

Debt Service Funds The Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long-term obligations principal, interest, and related costs. The District maintains the following debt service fund:

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used to account for the accumulation of resources for, and the repayment of, district bonds, interest, and related costs.

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows. The District applies all GASB pronouncements, as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Proprietary funds are classified as enterprise or internal service. The District has the following proprietary fund:

Internal Service Fund Internal service funds may be used to account for any activity for which goods or services are provided to other funds of the District in return for a fee to cover the cost of operations. The District operates a self-insurance worker's compensation fund that is accounted for in an internal service fund.

Fiduciary Fund Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is comprised of agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting.

The government-wide financial statement of activities presents a comparison between direct expenses and program revenues for each governmental program. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the District.

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net assets restricted for other activities result from special revenue funds and the restrictions on their net asset use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

PALM SPRINGS UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2006

Governmental Funds All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the statements for the governmental funds on a modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Proprietary Funds Proprietary funds are accounted for using a flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net assets. The statement of changes in fund net assets presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements, because they do not represent resources of the District.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 45, 60 or 90 days. However to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

PALM SPRINGS UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2006

Deferred Revenue Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

Certain grants received that have not met eligibility requirements are recorded as deferred revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental type funds.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide financial statement of net assets. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements, 5 to 50 years; equipment, 2 to 15 years.

PALM SPRINGS UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2006

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental column of the statement of net assets.

Compensated Absences

Accumulated unpaid vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net assets. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

However, claims and judgments, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term loans are recognized as liabilities in the governmental fund financial statements when due.

Fund Balance Reserves and Designations

The District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance, which is available for appropriation in future periods. Fund balance reserves have been established for revolving cash accounts, stores inventories, and legally restricted grants and entitlements.

Designations of fund balances consist of that portion of the fund balance that has been designated (set aside) by the governing board to provide for specific purposes or uses. Fund balance designations have been established for economic uncertainties, unrealized gains of investments and cash in county treasury, and other purposes.

PALM SPRINGS UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2006

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. The government-wide financial statements reports \$143,383,211 of restricted net assets.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For purposes of the budget, on behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Riverside bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

NOTES TO FINANCIAL STATEMENTS

Changes in Accounting Principles

In November 2003, GASB issued GASBS No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. This Statement establishes guidance for accounting and reporting for impairment of capital assets and for insurance recoveries, whether associated with an impaired capital asset or not. This Statement is effective for periods beginning after December 31, 2004, or during the 2005-06 fiscal year.

In December 2004, GASB issued GASBS No. 46, *Net Assets Restricted by Enabling Legislation*. This Statement clarifies that a legally enforceable enabling legislation restriction is one that a party external to a government, such as citizens, public interest groups, or the judiciary, can compel a government to honor. The Statement states that the legal enforceability of an enabling legislation restriction should be reevaluated if any of the resources raised by the enabling legislation are used for a purpose not specified by the enabling legislation or if a government has other cause for reconsideration. Although the determination that a particular restriction is not legally enforceable may cause a government to review the enforceability of other restrictions, it should not necessarily lead a government to the same conclusion for all enabling legislation restrictions.

This Statement also specifies the accounting and financial reporting requirements if new enabling legislation replaces existing enabling legislation or if legal enforceability is reevaluated. Finally, this Statement requires governments to disclose the portion of total net assets that is restricted by enabling legislation. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2005.

New Accounting Pronouncements

In July 2004, GASB issued GASBS No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This Statement will require local governmental employers who provide other postemployment benefits (OPEB) as part of the total compensation offered to employees to recognize the expense and related liabilities (assets) in the government-wide financial statements of net assets and activities. This Statement establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets), note disclosures, and, if applicable, required supplementary information (RSI) in the financial reports of State and local governmental employers.

Current financial reporting practices for OPEB generally are based on pay-as-you-go financing approaches. They fail to measure or recognize the cost of OPEB during the periods when employees render the services or to provide relevant information about OPEB obligations and the extent to which progress is being made in funding those obligations.

This Statement generally provides for prospective implementation - that is, that employers set the beginning net OPEB obligation at zero as of the beginning of the initial year. The District will be required to implement the provisions of this Statement for the fiscal year ended June 30, 2008. The District is in the process of determining the impact the implementation of this Statement will have on the government-wide statement of net assets and activities.

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2006**

In June 2005, the GASB issued GASBS No. 47, *Accounting for Termination Benefits*. GASBS No. 47 addresses accounting for both voluntary and involuntary termination benefits. For termination benefits that affect an employer's obligations for defined benefit OPEB, the provisions of GASBS No. 47 should be applied simultaneously with the requirements of GASBS No. 45. For all other termination benefits, including those that affect an employer's obligations for defined benefit pension benefits, GASBS No. 47 is effective for financial statements for periods beginning after June 15, 2005. Earlier application of GASBS No. 47 is encouraged.

NOTE 2 - DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2006, are classified in the accompanying financial statements as follows:

Governmental activities	\$170,524,996
Fiduciary funds	945,353
Total Deposits and Investments	<u>\$171,470,349</u>

Deposits and investments as of June 30, 2006, consist of the following:

Cash on hand and in banks	\$ 968,444
Cash in revolving	100,000
Investments	170,401,905
Total Deposits and Investments	<u>\$171,470,349</u>

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the county pool.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

Investment Type	Fair Value	Weighted Average Maturity
County Pool	<u>\$169,565,430</u>	288 days

PALM SPRINGS UNIFIED SCHOOL DISTRICT

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type.

Investment Type	Minimum Legal Rating	Rating as of June 30, 2006	Fair Value
County Pool	N/A	AAA	<u>\$169,565,430</u>

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk. As of June 30, 2006, the District maintained cash deposits in the amount of \$1,038,370 with two different financial institutions. Of the deposit balances, amounts on deposit up to \$100,000 are covered by Federal Deposit Insurance Corporation (FDIC) insurance at each institution. The deposits in excess of \$100,000 at anyone institution are collateralized with securities held by the pledging financial institutions' trust departments or agents, but not in the Districts name and are therefore considered collateralized risk deposits.

Uninsured and collateralized with securities held by the pledging financial institution's trust departments or agents, but not in the name of the District	<u>\$ 838,370</u>

NOTE 11 - POSTEMPLOYMENT BENEFITS

The District provides postemployment health care benefits, in accordance with District employment contracts, to all employees who retire from the District on or after attaining age 55 with at least 10 years of service. Currently, 85 employees meet those eligibility requirements. The District contributes 100 percent of the amount of premiums incurred by retirees and their dependents. During the year, expenditures of \$1,212,643 were recognized for retirees' health care benefits.

NOTE 12 - RISK MANAGEMENT - CLAIMS

Description

Beginning July 1, 2003, the District's risk financing activities for Workers' Compensation are recorded in the Internal Service Fund. The purpose of the Internal Service Fund is to administer the District's self-insured portion of its workers' compensation insurance program.

The District participates in various public entity risk pools for health coverage and property exposures (see Note 15).

Claims Liabilities

The District records an estimated claims liability claims filed against it. Claims liabilities are based on estimates of the ultimate costs of reported claims. An estimate for claims incurred, but not yet reported is included.

NOTE 13 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Certificated employees are members of the State Teachers' Retirement System (STRS) and classified employees are members of the Public Employees' Retirement System (PERS).

STRS

Plan Description

The District contributes to the California State Teachers' Retirement System (STRS); a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the STRS annual financial report may be obtained from STRS, 7667 Folsom Blvd., Sacramento, CA 95826.

Funding Policy

Active plan members are required to contribute 8.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by STRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2005-2006 was 8.25 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to STRS for the fiscal years ending June 30, 2006, 2005, and 2004, were \$6,938,750, \$6,298,188, and \$6,131,986, respectively, and equal 100 percent of the required contributions for each year.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2006

PERS

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS); a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

Funding Policy

Active plan members are required to contribute 7.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2005-2006 was 9.116 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalPERS for the fiscal years ending June 30, 2006, 2005, and 2004, were \$2,429,775, \$2,342,915, and \$2,208,408, respectively, and equal 100 percent of the required contributions for each year.

On Behalf Payments

The State of California makes contributions to STRS and PERS on behalf of the District. These payments consist of State General Fund contributions to STRS in the amount of \$3,799,071 (4.517 percent of salaries subject to STRS). No contributions were made to PERS for the year ended June 30, 2006. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures; however, guidance received from the California Department of Education advises local educational agencies not to record these amounts in the Annual Financial and Budget Report. These amounts have not been included in the budget amounts reported in the General Fund Budgetary Schedule. These amounts have been recorded in these financial statements. On behalf payments have been excluded from the calculation of available reserves.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2006.

**NOTE 15 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWERS
AUTHORITIES**

The District is a member of the Riverside Schools' Insurance Authority (RSIA), and Riverside Employer/Employees' Partnership for Benefits (REEP) public entity risk pools. The District pays an annual premium to each entity for its health, workers' compensation, and property liability coverage. The relationships between the District and the JPA's are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements.

During the year ended June 30, 2006, the District made payments of \$754,092 and \$21,487,188 to RSIA and REEP, respectively, for health, worker's compensation and property liability coverage.

The General Fund balance has increased by \$8,848,559 over the past two years. The fiscal year 2006-2007 budget projects a further increase of \$72,173 (.25 percent). For a district this size, the State recommends available reserves of at least three percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surpluses in the past three years and anticipates incurring an operating surplus during the 2006-2007 fiscal year. Total long-term obligations have increased by \$84,633,190 over the past two years.

Average daily attendance has increased by 1,007 over the past two years. Additional growth of 470 ADA is anticipated during fiscal year 2006-2007.

¹ Budget 2007 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all undesignated fund balances and all funds designated for economic uncertainty contained within the General Fund, Special Reserve Fund (other than capital outlay).

³ On behalf payments of \$3,799,071 have been excluded from the calculation of available reserves for the fiscal years ending June 30, 2006 and 2005, respectively

⁴ Excludes Adult ADA.

PALM SPRINGS UNIFIED SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2006

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

Districts must maintain their instructional minutes at either the 1982-83 actual minutes or the 1986-87 requirement, whichever is greater, as required by Education Code Section 46201.

Schedule of Revenues and Expenditures – Proposition 10 Grants

This schedule provides information to the Riverside County Children and Families Commission for each of the District's Proposition 10 Grants.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Governing Board
Palm Springs Unified School District
Palm Springs, California

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Palm Springs Unified School District as of and for the year ended June 30, 2006, which collectively comprise the Palm Springs Unified School District's basic financial statements and have issued our report thereon dated October 18, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Palm Springs Unified School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to the management of Palm Springs Unified School District in a separate letter dated October 18, 2006.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Palm Springs Unified School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the governing board, audit committee, management, the California Department of Education, the State Controller's Office, Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Governing Board
Palm Springs Unified School District
Palm Springs, California

Compliance

We have audited the compliance of Palm Springs Unified School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major Federal programs for the year ended June 30, 2006. Palm Springs Unified School District's major Federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Palm Springs Unified School District's management. Our responsibility is to express an opinion on Palm Springs Unified School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Palm Springs Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Palm Springs Unified School District's compliance with those requirements.

In our opinion, Palm Springs Unified School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major Federal programs for the year ended June 30, 2006.

Internal Control Over Compliance

The management of Palm Springs Unified School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Palm Springs Unified School District's internal control over compliance with requirements that could have a direct and material effect on a major Federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major Federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the governing board, audit committee, management, the California Department of Education, the State Controller's Office, Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

Governing Board
 Palm Springs Unified School District
 Palm Springs, California

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Palm Springs Unified School District as of and for the year ended June 30, 2006, and have issued our report thereon dated October 18, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2005-06*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Compliance with the requirements of laws, regulations, contracts, and grants listed below is the responsibility of Palm Springs Unified School District's management. In connection with the audit referred to above, we selected and tested transactions and records to determine the Palm Springs Unified School District's compliance with the State laws and regulations applicable to the following items:

We did not perform testing for Step 2 of Alternative Pension Plans, because the District did not offer an alternative pension plan for its full-time permanent employees.

Based on our audit, we found that for the items tested, the Palm Springs Unified School District complied with the State laws and regulations referred to above. Further, based on our audit, for items not tested, nothing came to our attention to indicate that the Palm Springs Unified School District had not complied with the laws and regulations. Our audit does not provide a legal determination on Palm Springs Unified School District's compliance with the State laws and regulations referred to above.

This report is intended solely for the information and use of the governing board, audit committee, management, the California Department of Education, the State Controller's Office, the California Department of Finance, Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Governing Board
Palm Springs Unified School District
Palm Springs, California

In planning and performing our audit of the financial statements of Palm Springs Unified School District, for the year ended June 30, 2006, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the combined and combining financial statements and not to provide assurance on the internal control structure.

However, during our audit we noted matters that are opportunities for strengthening internal controls and operating efficiency. The following items represent conditions noted by our audit that we consider important enough to bring to your attention. This letter does not affect our report dated October 18, 2006 on the government-wide financial statements of Palm Springs Unified School District.

INTERNAL CONTROLS

District Office

Findings

During our examination, it came to our attention that the District does not maintain a complete and current equipment inventory. In order to adequately safeguard assets and to comply with Federal and State requirements, the District's fixed assets accounting system should provide for the following:

- Maintain detail records indicating asset description, acquisition date and costs, funding source, location and serial/identification.
- Such detailed property records should be periodically checked by physical inventory with differences reconciled and records adjusted to reflect shortages.
- Procedures in place governing the disposition of property and equipment including monitoring the disposition of property acquired with grant funds.

Recommendation

We recommend that the District's management review its procedures relating to the fixed assets accounting system and implement appropriate modifications to ensure safeguarding of assets and compliance with Federal and State requirements.

SITE CASH

Desert Springs Middle School, Rio Vista Elementary, Raymond Cree Middle School, Desert Hot Springs High School, and Julius Corsini Elementary

Finding

Deposits are not being made timely, and this could result in cash balances being maintained at the site, which severely decreases the safeguarding of the asset.

Recommendation

Deposits should be made regularly to minimize the amount of cash held at the site. During weeks of high cash activity there may be a need to make more than one deposit. The District should establish guidelines for this procedure including the maximum cash on hand that should be maintained at the site.

Cathedral City High School, Mt. San Jacinto Continuation

Finding

Revenue potential forms are not being used to document and control fund-raising activities as they occur. These forms supply an element of internal controls without which it is difficult to determine the success of a fundraiser and to track money as it is spent and received.

Recommendations

As the revenue potential form is a vital internal control tool, it should be used to document revenues, expenditures, potential revenue and actual revenue. This allows an analysis of the fundraiser to be conducted, indicating to the staff the success or failure of the completed project. The revenue potential also indicates weak control areas in the fund-raising procedures at the site, including lost or stolen merchandise, problems with collecting all moneys due and so forth. The revenue potential form used at the site should contain four major elements. These are:

1. **Potential Income**-This lists the selling price of the item multiplied by the number of items purchased to compute the total income that should be deposited from this fundraiser if all the items were sold and all the money was turned in. This element should also be utilized to track the cost of the items, check numbers used to purchase the items, and the purchase dates. This purchasing information is a good reference source for future sales and also tracks to cost so that profits can be determined.
2. **Receipts/Fundraiser Deposits**-This records all deposits turned in which are from funds generated from the sale. The receipt number issued to the advisor, date, and deposit amount should be logged. This is necessary to be able to recap the deposits of the sale and to trace these deposits to the appropriate accounts at the end of the sale to the appropriate accounts to ensure that all postings were correct.
3. **Analysis**-This section is used to compare the potential income as calculated in the Potential Income section to the actual funds raised as calculated in the Receipts/Fundraiser Deposits section. The difference between these two amounts should be documented and explained. The explanation can consist of merchandise not sold, merchandise lost or destroyed, or funds lost or stolen.
4. **Recap**-This section figures the net profit of the sale. Further fundraisers of this type can be planned or canceled depending on the information calculated in this section.

Desert Hot Springs

Finding

In reviewing the financial statements for the student body accounts we noted that the Spirit Club had a negative balance of a significant amount. Since the student body accounts represent individual portions of the cash and asset pool, by some having negative balances, they have in actuality spent the available funds of other accounts. A key control in any internal control system is the control of expenditures by ensuring the expenditure is allowable and that the account requesting the expenditure has the funds to cover it. This control feature has not been sufficiently followed.

Recommendation

The site bookkeeper has a fiduciary responsibility to all student body organizations to act in each group's best interest. By allowing certain clubs to spend in excess of their available reserves, the bookkeeper is not meeting this responsibility to the other clubs and organizations. Request for disbursements from student groups should be reviewed for appropriateness and also to ensure that funds are available in the groups account.

San Jacinto Continuation School

Finding

The monthly bank statement was not reconciled correctly for our year end testing, therefore, the site is not aware of their available cash balance or if the financial records of the clubs accurately reflect true financial information.

Recommendation

Monthly bank reconciliation's must be done in order to ensure that the cash balance reported on the books is accurate and that the financial institution has not made a mistake. Besides reconciling the cash accounts, the balances of the student body accounts should be totaled and compared to this reconciled cash amount to ensure that the two amounts are equal. Differences between these two amounts could be caused by mis-postings to the student body accounts.

Findings

The following problems were noted during a cursory review:

- The bank reconciliation was done incorrectly.
- No financial statements available.
- The information necessary to perform our audit was unavailable.

Recommendation

The District should look into the situation at the site. Procedures should be outlined and explained to the site personnel. A periodic review should be made by the District of the sites progress towards the deficiencies mentioned above.

Governing Board
Palm Springs Unified School District

We will review the status of the current year comments during our next audit engagement.
