New Discipline Module
Join us as we look into the newly streamlined *Incidents 2019* which now contains all the Discipline Incident information on one tab. Demonstration will show the ability to create and process a discipline incident and generate reports within the new Discipline Incident module. This session is for administrators and discipline clerks.

Master Schedule Builder
A Closer Look at Functionality Master Schedule Builder (MSB) is a powerful scheduling tool that automatically builds the most efficient schedule possible, taking a variety of factors into account. Demonstration will show users MSB fields and functions, setup, and rules, and how to apply MSB to fit your school's needs. For maximum benefit, attendees should understand general scheduling concepts and other routes to scheduling (e.g., Course Request setup and concepts)

Online Course Request
Learn about entering Course Requests via Online Course Requests and the Student Requests screen. Demonstration will show users how to enter Course Requests for students or guide them through the process of entering Online Course Requests in preparation for the scheduling process for the New Year. This session is for counselors and anyone who enters Course Requests or helps students enter Course Requests. Knowledge of Synergy Scheduling terminology is recommended.

On-line Registration
Did you know the last few releases of Synergy Online Registration have significantly expanded the product's capabilities? Come get a high-level overview and find out what's new! Demonstration will show users how to set up Online Registration to better meet their District's needs and goals. This session is designed for district decision makers and for staff responsible for creating and maintaining enrollment packets.

New Gradebook
See a demonstration of the powerful Course Content building tools of the new Gradebook. The session will include building Course Content, Assignment Banks, utilizing LTI partners, YouTube, Google Drive, OneDrive, and more. Demonstration will show users the latest fast entry and auto-saving abilities of the new Gradebook. This session is for Elementary and Secondary teachers.

Secondary Standards-based grading. Demonstration will show users how other Synergy School
Districts utilize the Standards at the Secondary level. This session is for Administration and Secondary teachers.

Synergy RTI
How is the the discipline/PBIS features included with Synergy RTI? This demonstration includes how to track MINOR /MAJOR behavior, Check-in/Check-out in RTI and Synergy and the ability to capture observations and create referrals for student support.

Assessments
Synergy Assessment has grown up! Come see new features with technology enhanced items, scanning, reports, and accommodations as we show the powerful difference an integrated assessment system offers students, teachers, and stakeholders at every level of the district
