AUGUST 2020

ABOUT OUR PROGRAM

QUALITY PROGRAM: SPOTLIGHTS

Think Together is an afterschool program that partners with schools to change the odds for kids. We will be following the Distance Learning Model through Zoom, and expand learning on ELA, Math, STEM, Health & Wellness, Arts & Enrichment, Social Emotional Learning, and Community Building. Our Team is focused on delivering interactive and academically-oriented programs outside the regular school day to help all students achieve their full potential. Our goal is to teach, inspire, and nurture kids to become productive and responsible members of society. We are excited to have the opportunity to continue our program here at Agua Caliente Elementary and look forward to meeting you!

MEET OUR STAFF

MRS. JESSELYN

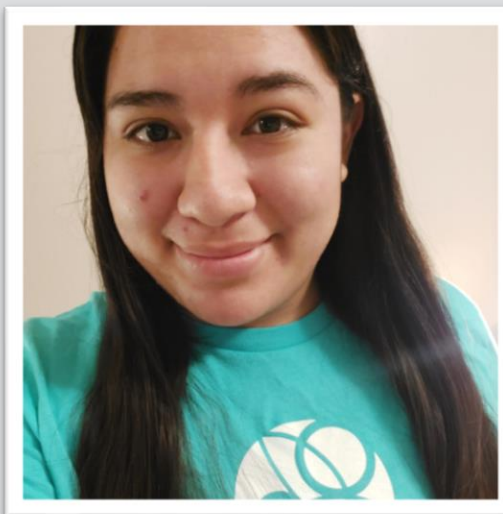

Hello, I am Jesselyn Rosas the Site Coordinator. I grew up here in the Valley and am very thankful to have the opportunity to give back to my community. I earned my Bachelor's Degree at UC Riverside in Education & Human Development with a minor in Sociology. My educational career began through UC Riverside's community service events and has led me through Americorps & Think Together, where I have served as a tutor, mentor, coordinator, facilitator, & Program Leader. These experiences have taught me to value continuous learning and service above self. Our program aims to enhance our students' learning experience by emphasizing student autonomy, community building, and interactive hands on activities. I hope that our program will prove to be an excellent resource for our students, parents & teachers.

MS. SARA

Hello! My name is Sara Rodriguez and I am a 4th year undergraduate at UC San Diego working towards a B.S in Environmental Systems with a specialization in Ecology, Behavior, and Evolution and a minor in Political Science. For the past two years I have worked as a director at the UCSD Sustainability Resource Center and for the past four I have been a student aid at the Early Childhood Education Center in La Jolla. I am very excited to be working with your students, as I am an Agua Caliente Elementary School alumni myself! I hope that throughout this program I am able to help them find a passion for learning, confidence in their own abilities, and excitement for the future. As most of my undergrad career has revolved around STEM, I hope that with our program and curriculum I am able to introduce your student to the wonders of technology, nature, and the sciences.

MRS. ARELI

Hello everyone, my name is Areli Ibarra and I am currently studying at Grand Canyon University for a Bachelor's Degree in Elementary Education. I love working with kids and have a great background full of experience working with the Girl Scouts of Greater Los Angeles as a counselor. Think Together is a great program that allows students to learn while still having fun. I am an animal lover and have a two-year-old dog named Petunia. I was born and raised in Palm Springs, but all my family is from Guadalajara, Jalisco. I am also a huge soccer fan, I have played soccer since the age of 5 and have coached soccer for 3 years now. I look forward to working with you and your children at Think Together!
