

Behavior Basics

Presented By
The Behavior Team &
SPED Teachers on Special Assignments

Hello!

The purpose of this presentation is to provide you with a resource pertaining to basic behavior management systems you can do with your students at school!

HS: 8:45-10:00 am
ES/MS: 1:30 - 2:45 pm

By the numbers

Study from 2016

students with special needs make up

12% of the public
school population

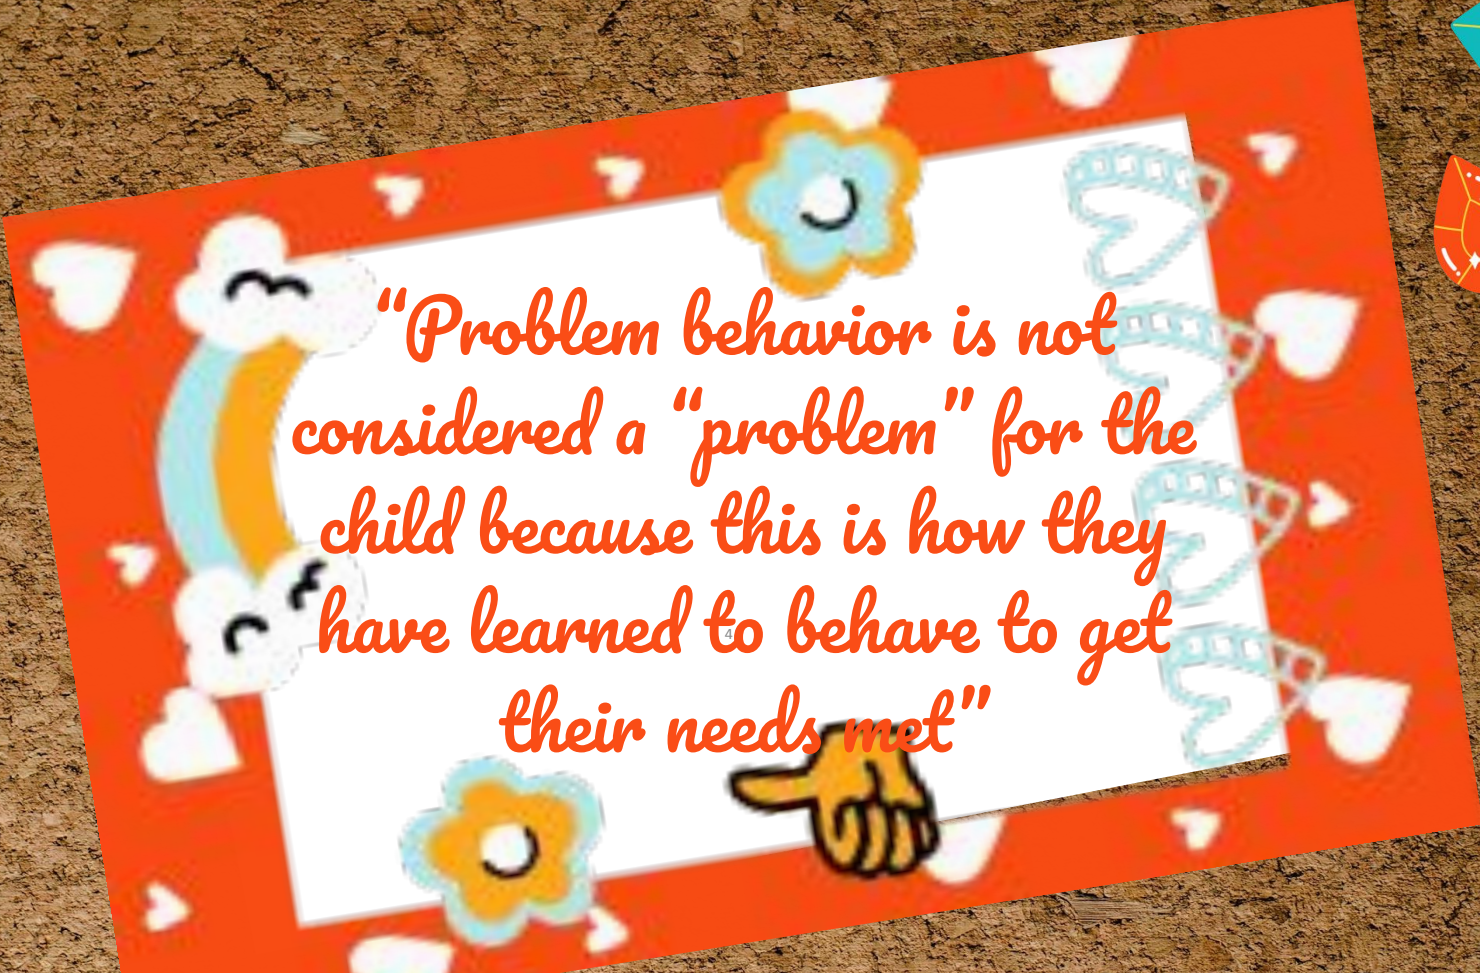

yet they account for

66% of incidents involving
seclusion

71% of incidents involving
restraint

"Problem behavior is not considered a "problem" for the child because this is how they have learned to behave to get their needs met"

Reasons why “Problem Behaviors” may Occur

- Communication /Social Deficit due to never being taught appropriate ways to request or express needs.
- Learning disabilities that may require longer processing time to understand and comprehend instructions & information.
- Overloaded mental health capacity - stress, anxiety, depression
- In a Behavior Analytic Perspective it may be due to wanting access or escaping a:
 - Sensory Need, Escape (people or environments), Attention from others, and accessing a Tangible (items, materials, locations).

Common Behavioral Challenges

Tantrum

Elopement

Refusal

Throwing

Aggression

Teasing

Scavenger Hunt

(10 min)

1. Find something you can use for redirection.

2. Find a primary reinforcer.

3. Find the Premack Principle.

4. Find something that helps me transition.

5. Find something that helps to understand what comes next.

6. How would you track the Antecedent, Behavior and ...Consequence.

7. What is going to motivate them to work?

*The start is
what stops
most people.*

Before

Where do I start?

The starting
point is always
now, the end
point is up to
you.

Build Rapport

**Can minimize anxiety,
increase student
participation, structure and
encourage social interaction,
foster a positive learning
environment, and increase
learning.**

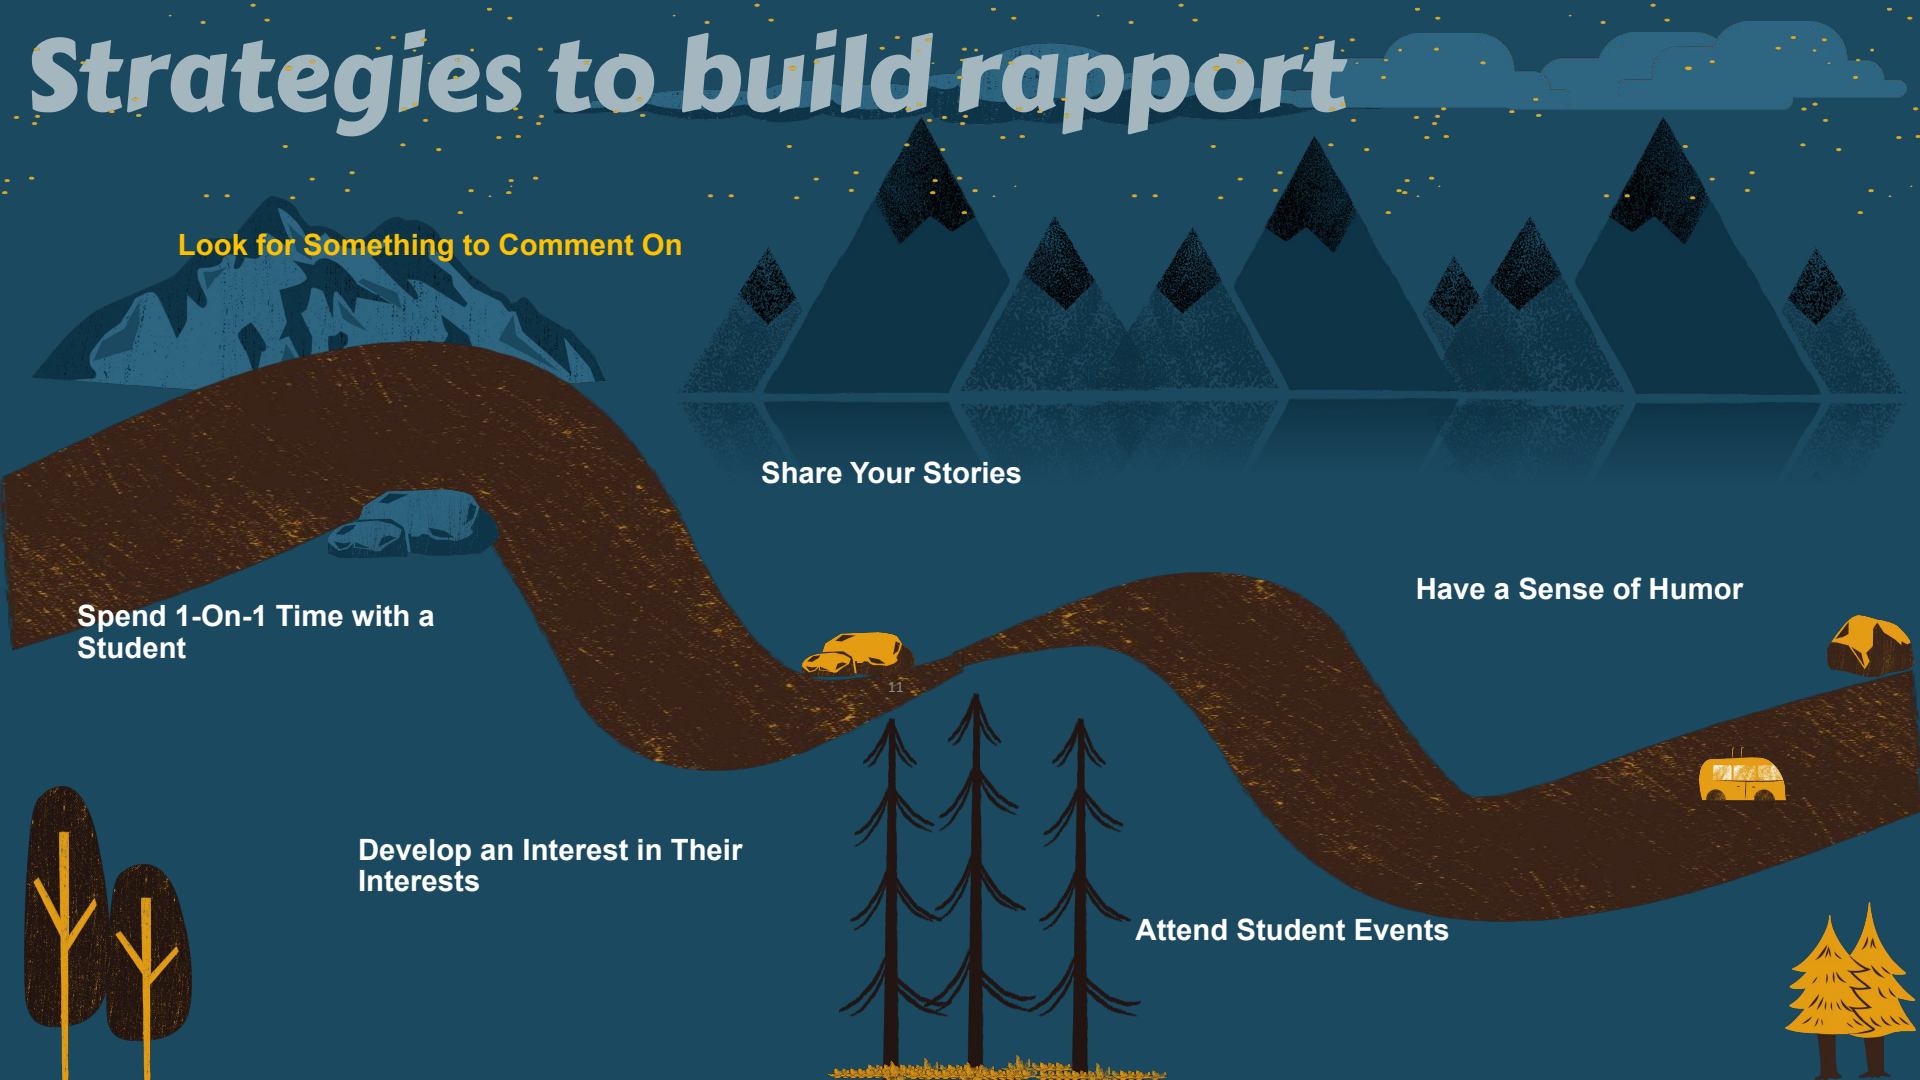

Build Rapport

- Rapport entails cooperation and acting out of freedom, while force compels action through fear, pressure, or enticement.

- Rapport is about building connections with an individual or community. It is more than being friendly or getting along with another person. Rapport seeks to break down barriers and enable fluid communication.

BUILD A CONNECTION & BRIDGE THE GAP!

Strategies to build rapport

Look for Something to Comment On

Share Your Stories

Spend 1-On-1 Time with a Student

Have a Sense of Humor

Develop an Interest in Their Interests

Attend Student Events

Understand their Triggers

12

BIG TRIGGERS

- **Everyday we are faced with situations or circumstances that can either make or break our day.**
- **Most people may experience stress and frustration, especially when things do not go our way, and this may cause unwanted behaviors.**
- **For some of our students, this may be magnified and may cause harm to themselves or others.**

Video Reflection

What are some triggers seen on the video?

the video?

What are some of your own personal triggers?

What are some of your own personal triggers?

IDENTIFY TRIGGERS

Observe your student
across all environments
to determine what it is
that might be
triggering the "problem
behavior"

Examples

Instructional Demand

Social Reprimand

Transitioning from
Recess

Being called out when
doing something
inappropriate...

Being called out to
participate...

Understanding ABC's

A

Antecedent

What happened
before the behavior

B

Behavior

What the
“problem behavior”
looked like

C

Consequence

What happened
after the behavior

A-B-C Data Sheet for _____

Date/Time	Antecedent What happened BEFORE behavior occurred?	Behavior	Consequence What happened AFTER behavior occurred?	Comments

Antecedent	Behavior	Consequence
<input type="checkbox"/> Demand <input type="checkbox"/> Item Restricted <input type="checkbox"/> Attention Restricted <input type="checkbox"/> Unstructured Time <input type="checkbox"/> Transition	<input type="checkbox"/> Tantrum <input type="checkbox"/> Eloping <input type="checkbox"/> Flopping <input type="checkbox"/> Refusal <input type="checkbox"/> Aggression	<input type="checkbox"/> Offered Choice <input type="checkbox"/> Reprimand <input type="checkbox"/> Discussion <input type="checkbox"/> Removed Item <input type="checkbox"/> Ignored
<input type="checkbox"/> Demand <input type="checkbox"/> Item Restricted <input type="checkbox"/> Attention Restricted <input type="checkbox"/> Unstructured Time <input type="checkbox"/> Transition	<input type="checkbox"/> Tantrum <input type="checkbox"/> Eloping <input type="checkbox"/> Flopping <input type="checkbox"/> Refusal <input type="checkbox"/> Aggression	<input type="checkbox"/> Offered Choice <input type="checkbox"/> Reprimand <input type="checkbox"/> Discussion <input type="checkbox"/> Removed Item <input type="checkbox"/> Ignored
<input type="checkbox"/> Demand <input type="checkbox"/> Item Restricted <input type="checkbox"/> Attention Restricted <input type="checkbox"/> Unstructured Time <input type="checkbox"/> Transition	<input type="checkbox"/> Tantrum <input type="checkbox"/> Eloping <input type="checkbox"/> Flopping <input type="checkbox"/> Refusal <input type="checkbox"/> Aggression	<input type="checkbox"/> Offered Choice <input type="checkbox"/> Reprimand <input type="checkbox"/> Discussion <input type="checkbox"/> Removed Item <input type="checkbox"/> Ignored

One of the duties for all staff members who work in a classroom is to support data collection procedures. One of the most important documents is the A-B-C Form.

Typically, prior to seeing the BCBA or any member of the Behavior Team, the staff must have some type of data that indicates the antecedent, observable behavior, and the consequences of the behavior.

What is the Antecedent?

What is the Behavior?

What is the Consequence?

Motivation Problems?

Preference Assessment

Interview and ask them what they like, their triggers, etc.

Observations

Watch who they play with, what they gravitate towards, or engagement of an activity.

Ask Others / Family

Call or email other teachers or ask family members about things they may enjoy.

Remove Distractions

Out of sight, out of mind, including peers that may act as a distraction

Behavioral Momentum

Present easy task first before asking them to do the “big” task.

Enrich the Environment

Provide interesting and pleasant items/activities in the classroom environment.

5 Tips if it's a Skill Deficit

Set aside extra time to genuinely teach
Explicit Behavioral Expectations

Determine what accommodations are necessary to support their learning

Practice patience and understand that there is a learning curve

Practice compassion as we are only with them for a few hours, but they must live with their disability for their entire life.

Scaffold and truly simplify the material that suits their needs using a Visual Schedule

Change the way
information is offered or
presented

Change the way
students are able to
complete
assignments

Adjust the setting
where students
complete
assignments

Adjust the time
allowed for
students to
complete
assignments

Use tools to help
with student
Self Monitoring

Presentation

Response

Environment

Timing

Presentation

What is required from you!

Avoid Power Struggles

Listen and validate their struggles and what they are communicating to you. If they are upset with an assignment, offer assistance without being overbearing. If they say, “no”, then, let them be.

Mind your Body Language

Be observant with what your body language is telling them (i.e. crossing arms = may be indicative of being mad, tapping foot and deep sigh may be indicative of losing patience.

24

Allow the student the opportunity to “Calm Down” before intervening

Especially if the behavior is not dangerous, sometimes, the student may just need to self regulate.

Before

After

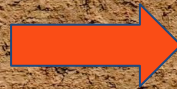

**Look at where we started vs.
how far we've come**

“You can’t finish what you
don’t start, and you should
never start what you’re not
committed to finish.”

— Gary Ryan Blair

Survey

**Fill out the survey to be
eligible for a gift card
at the next meeting**
