

ENERGY CONSERVATION REMINDER

SPRING SHUTDOWN

Palm Springs Unified School District is continuing to expand its energy conservation efforts. Here's your reminder that Spring Break is one of the most important times of the year for conserving energy!

As you prepare for the well-deserved time off, please take a few minutes to ready your area for this vital shutdown.

Please be mindful of the following:

Turn off, unplug or set back energy-using items.

Clean out and unplug refrigerators, microwaves, coffee makers, and other small appliances that have a light or (non-vital) clock.

Unplug doc-u-cams/projectors (after it has cooled down).

Unplug televisions, electric pencil sharpeners, personal clocks, and personal printers.

Unplug your computers and laptops

Close your blinds or shades before you leave for vacation.

Take home any animals in the classroom.

A shutdown checkoff list can be found at <https://www.psusd.us/Page/2410>

Thank you for participating!
