

**Pascagoula-Gautier School District**  
**15 Minute Interval Classroom Observation**

Student Name: \_\_\_\_\_ Observer: \_\_\_\_\_  
 Teacher \_\_\_\_\_ Class Size \_\_\_\_\_ Date \_\_\_\_\_  
 Activity \_\_\_\_\_  
 Start Time \_\_\_\_\_ End Time \_\_\_\_\_

**Instructions** – Use 30 second intervals and note (in the left margin) when the activity changes. Circle 1 item per interval and indicate the dominant behavior. You will alternate between the target student and peer. Observe target student 30 seconds and record, then observe peer 30 seconds and record. Observe peers by starting with the student on right or left of the target student and then working across the rows/tables. Observe a different peer observed each interval. Most, if not all, students in the class will be observed during at least one interval, some more, depending on class size.

**Code:**

+ = on task

**N** = noise – speaks out of turn, yells, makes disruptive sounds

**Md** = motor disruptive – disruptive out of seat, throws objects, stands on chair, etc.

**Mo** = minor motor obtrusive – repetitive small motor movements which distracts others, drumming, rocking, squirming

**P** = passive off-task, daydreaming, looking around, staring at ceiling

**VA** – variable A – rater determined (ex. Crying, hitting, cursing): \_\_\_\_\_

**VB** = variable B – rater determined: \_\_\_\_\_

<u>Interval</u>	<u>Target Student</u>	<u>Peers</u>	<u>Comment</u>
