# DATA

Digital Arts Technology Academy

## Focus Your Creativity!

ONLY AT CATHEDRAL CITY HIGH SCHOOL

# DATA

## Digital Imaging

threads art, technology, and career-based learning with creativity and community collaboration. This career arts pathway provides students with a range of technology-based visual arts projects which integrate

- Digital Photography
- Photoshop
- Graphic Design
- 2D/3D Animation
- 3D Modeling & printing
- Game Design
- T-shirt Design

in a cutting edge high school studio environment.

**DATA-DI** students are encouraged to apply creative skills learned in class to exciting interactions with local professionals, build dynamic art and media content, and submit award winning works to local, regional, and global competitions and collaborations.

[www.DATA-Di.us](http://www.DATA-Di.us)

## Digital Storytelling

students focus their creativity through film, video, audio, and more. Working with peers and collaborating with professionals, students use industry standard software and equipment to create media projects for festivals, organizations, TV, and the web. Students are also encouraged to pursue their passions and build skills in new areas.

**DATA-DS** students also produce a weekly radio show / podcast for the Palms Unified School District available on local radio and iTunes..
